 - Toilet paper tubes
 - Paper towel tubes
 - Gift wrap or mailing tubes
 - Small yogurt containers (washed out)
 - Masking tape

A Peek At What We Are Learning

Reading

We will be diving into series chapter books. Students will be listening to the stories and thinking and responding in their learning log notebooks.

Writing

We are working on writing reviews. Students will learn about opinion writing and persuading the reader. They will also learn how to write a friendly letter. Stay tuned for a date for the publishing party!

Phonics

We have been changing the beginning and ending of words to make new words. We also have been learning about contractions.

Math

1st grade: We have been adding and subtracting within 10. We are working on being automatic with these facts.

2nd grade: Students are measuring using inches, feet, and yards.

Content

We will be exploring solids and liquids. Students will see if objects sink or float, are magnetic, if they stack or roll, and much more!

Reminders

- Please check your child's red important folder nightly and send back in backpack daily. Also, with the cold weather approaching, please be sure to send your child with the appropriate clothes, boots, snow pants, jackets, hats, and mittens.
