

4K May NEWSLETTER

SHOWCASE OF KNOWLEDGE

This year of school has been an exciting year of growth for our 4k class. We would like to invite families to our classroom to show off some of our talents and accomplishments of the school year. The SHOWCASE is on MAY 23. The AM "Showcase of Knowledge" will be from 10:00-11:00. The PM "Showcase of Knowledge" will be from 2:00-3:00. We hope that you can join us! Please RSVP so that I know about how many will be joining us that day.

OUTDOOR LEARNING

As the weather continues to grow warmer, we will be spending more time outdoors with our learning. Children will be taking nature walks around the block and looking for signs of change in the Earth. During the week of May 28 -May 30 we will be having exploratory classes. Knowing we will be outside for learning for warmer days and there is limited shade on the playground, you may want to consider sending your child to school wearing sunblock.

INSIDE THE CLASSROOM

We have made it through the whole alphabet and we have created our very own ABC book. We have explored many terrific authors this year; including MO WILLIAMS, DR SEUSS, ERIC LITWIN, and JAN BRETT. Now we can claim that the 4k are authors too!!!

I am planning to do a mixing experiment with the children and would like them to predict how long it will take to mix the chocolate syrup into their milk. If you would NOT like your child to DRINK THE CHOCOLATE milk, please let me know- I'll provide a juice box for them instead. We will be needing a few supplies to help through our final months at school. We will need some small paper cups for the classroom. I am also looking for clean empty egg cartons for our spring planting. I am always willing to accept donations of Play-dough, bubbles and sidewalk chalk and BAND-Aids.

UPCOMING DATES
